# Summer Camps

## Building Cities

### Engineering for Kids

7yrs-14yrs

Cities are incredible feats of engineering. Giant skyscrapers made of steel and glass soars thousands of feet into the air. Cities began to form when farmers were able to make more food than they could eat, allowing other people to take up trades. While many cities have developed over hundreds or even thousands of years, in modern times some cities, like Songdo in South Korea, are being built from the ground up in a very short time. Students will take up the role of a team of city planners, looking to design the best city in the world from the ground up! Location: Dorothy Hart Community Center

**Monday – Friday, 9:00am – 12:00pm**

**July 11 – July 15**

**\$165/\$165 (residents/non-residents)**

## Survivor Week

### Engineering for Kids

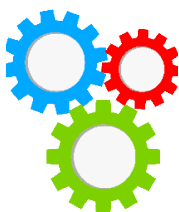

7yrs-14yrs

Students in this five-day camp will find themselves stranded on an abandoned island filled with perilous obstacles—dark caves, wild animals, cold temperatures, little food, and separation from the comforts of home. They will work collaboratively with their tribe members to compete against other tribes in specific engineering-related projects aimed at trying to survive the harsh island conditions and escape to their freedom. The tribe with the most points at the end of the week will claim the honor of Survivor: Engineer's Cove winner. Location: Dorothy Hart Community Center

**Monday – Friday, 1:00pm – 4:00pm**

**July 11 – July 15**

**\$165/\$165 (residents/non-residents)**

## Momentum Madness

### Engineering for Kids

7yrs-14yrs

How fast can an object go without compromising safety? Zero to sixty in two seconds?! Students in this camp will work with their Pit Crew to design and build vehicles, such as dragsters and hovering levitrons, which should be able to withstand astonishing speeds. Fasten your seat belt, the race has begun! Location: Dorothy Hart Community Center

**Monday – Friday, 9:00am – 12:00pm**

**August 8 – August 12**

**\$165/\$165 (residents/non-residents)**

## Medieval Mayhem

### Engineering for Kids

7yrs-14yrs

In medieval times, there were a huge number of engineering innovations. Crossbows, drawbridges, towers, cranes, the compass, and more were invented during those times. The lands then were ruled by feudal courts in a castle, with each castle having a great deal of land around it that was ruled by the lords and ladies of the castle. Because owning land meant more power, many lords and ladies went to battle with other lords and ladies, trying to take their castle and control their land. This led to many incredible devices being engineered, such as catapults. Students will be split into groups forming their own feudal court of lords and ladies. They will try to beat out the other teams in various challenges to show their prowess and be crowned kings and queens of the land with the Engineering for Kids Crown! Location: Dorothy Hart Community Center

**Monday – Friday, 1:00pm – 4:00pm**

**August 8 – August**

**\$165/\$165 (residents/non-residents)**

## Summer Fun – Preschool

3yrs-4yrs
